

Vote NO on SB 267

SB 267 – New Convention Hotel Development Incentive Act **Chief Sponsor: Stuart Adams**

SB 267 would create an incentive program giving taxpayer subsidies for the development of a new hotel near the Salt Palace Convention Center.

- **Let the market work.** If demand for more hotel rooms is so great, private investment will make it happen.
- **Picking winners and losers.** Providing subsidies for a new hotel creates a clear advantage to the government-subsidized hotel over those hotels funded with private money.
- **What happens to existing hotels?** The Utah Taxpayers Association has commissioned a study to find out what the effect of a new hotel would have on existing hotels. It is premature to act until the results of this study are known.
